Return Receipt Requested

March 11, 1999

Joseph M. Caruso
HC 65, Box 221
Pipe Springs, AZ 86022

Dear Mr Caruso:

Your two notices, submitted 09 March 1999, to conduct mining related operations on the unpatented mining claims M&M 1,2 & 3 do not meet the minimum requirements specified in the 43 CFR 3809 regulations. The notices must describe your proposed activities and their location in sufficient detail to locate the activities on the ground. Detailed surface disturbance information is required in order for the BLM to conduct archeological and threatened and endangered species surveys.

In addition to the above listed requirement, the notice must also describe provisions to control erosion, landslides, and water runoff; measures to isolate, remove, or control toxic materials; reshaping of the disturbed area, application of topsoil, and revegetation of the disturbed areas.

Please resubmit the notices with the deficiencies corrected.

If you have any questions regarding this letter, please contact Mr. Doug Powell at (435) 644-2672, Ext 2650.

Sincerely,

Verlin L. Smith
Field Manager

cc: Tom Munson, UDOGM

INFORMATION REQUIRED FOR A MINING OR EXPLORATION NOTICE

This form is designed to assist the claimant or operator in submitting the information required for a mining or exploration notice. This form does not need to be used for submittal of a notice, but all information required in 43 CFR 3809.1-3(c) must be included in any notice submitted.

Claimant Information

Name Joseph M Caruso
 Address HC 65 box 221
Pipe Springs Az 86022
 Telephone 520 643 6061

Operator Information

(If different than claimant)

Mining Claims Where Disturbance Will Occur

<u>Claim Name</u>	<u>UMC Number</u>	<u>Claim Type (Lode/Placer)</u>
<u>M & M #1 & #2</u>	<u>No Number Assigned yet</u>	<u>Lode Lode</u>
	<u>(Just Filed at recorder March 1st 99 will send</u>	
	<u>Soon as one is received</u>	
<u>M & M #3</u>	<u>No Number Assigned yet</u>	<u>Lode Lode</u>
	<u>(Just Filed at recorder March 1st 99 will</u>	
	<u>Send Number as soon as one is assigned</u>	

Activity: Mining X

Exploration _____

Mineral Type: Separian
Nodule

Location of Proposed Activity

Township 40 South, Range 8 West, Section 35 ^{1/4} 34 ^{1/4} East 1/2 of Sect 34 West 1/2 35
 Township _____ South, Range _____ West, Section _____ 1/4 1/4
 Township _____ South, Range _____ West, Section _____ 1/4 1/4
 Township _____ South, Range _____ West, Section _____ 1/4 1/4

Please attach an accurate map of the area. Maps should be scaled to clearly show areas of proposed surface disturbance.

Proposed Operations

Estimated Dates of Operation:

Start-Up: 3-16-99Finish: not sure

Describe the type of operations and how they will be conducted, including the location and size of areas where surface disturbance, structures, facilities, etc., are proposed. Calculate the total acreage of proposed disturbance (One acre = 43,560 sq. ft.):

plan To Continue into ridge on Site of Previously disturbed area with Trackhoe. area disturbed will be less Than 2 acres

Big Balls #1 & #2 was on same location previously by same owner also Notice of intent was approved on same site at that time

Access Routes

Describe any proposed improvement of existing roads:

Will only Fix ruts ect. that make road impassable

Describe new roads proposed (include location, length, width, estimated maximum cutbank height, and type of equipment used):

Will use existing road (Trail) will only Fix ruts or ditcher enough To make passage possible

Existing Disturbance

Describe any existing surface disturbance, structures, facilities, etc.. A map or sketch showing existing surface disturbance, structures, facilities, etc. is recommended.

A existing disturbance of Approx 300' X 10' is on location

Proposed Reclamation

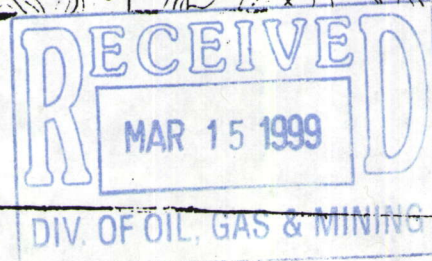

Reclamation of all areas disturbed will be completed to the standards described in 43 CFR 3809.1-3(c) and reasonable measures will be taken to prevent unnecessary or undue degradation of Federal land during operations.

Topsoil will be saved and redistributed after reclamation is completed. Area will be smoothed & rounded (mounds) each time disturbed.

Activity: Mining X

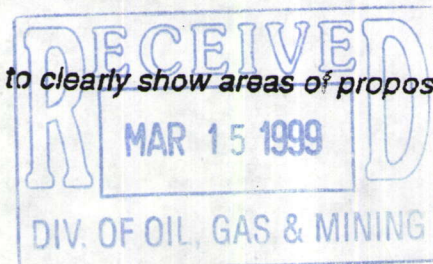

Exploration _____

Mineral Type: Separian
Module

Location of Proposed Activity

Township 40 South, Range 7 West, Section 30 1/4 1/4 South west 1/4
 Township _____ South, Range _____ West, Section _____ 1/4 1/4
 Township _____ South, Range _____ West, Section _____ 1/4 1/4
 Township _____ South, Range _____ West, Section _____ 1/4 1/4

Please attach an accurate map of the area. Maps should be scaled to clearly show areas of proposed surface disturbance.

Proposed Operations

Estimated Dates of Operation:

Start-Up: 3-16-99Finish: Not Sure

Describe the type of operations and how they will be conducted, including the location and size of areas where surface disturbance, structures, facilities, etc., are proposed. Calculate the total acreage of proposed disturbance (One acre = 43,560 sq. ft.):

Small disturbance along previously disturbed area less than
one acre with Trackhoe

North 40 mine was on same area previously by same owner
had valid OX on notice of intent at that time

Access Routes

Described any proposed improvement of existing roads:

To make passable Very little, only ruts filled

Describe new roads proposed (include location, length, width, estimated maximum cutbank height, and type of equipment used):

Will use existing road.

Existing Disturbance

Describe any existing surface disturbance, structures, facilities, etc.. A map or sketch showing existing surface disturbance, structures, facilities, etc. is recommended.

A existing disturbance is on area approximately 450' x 12'

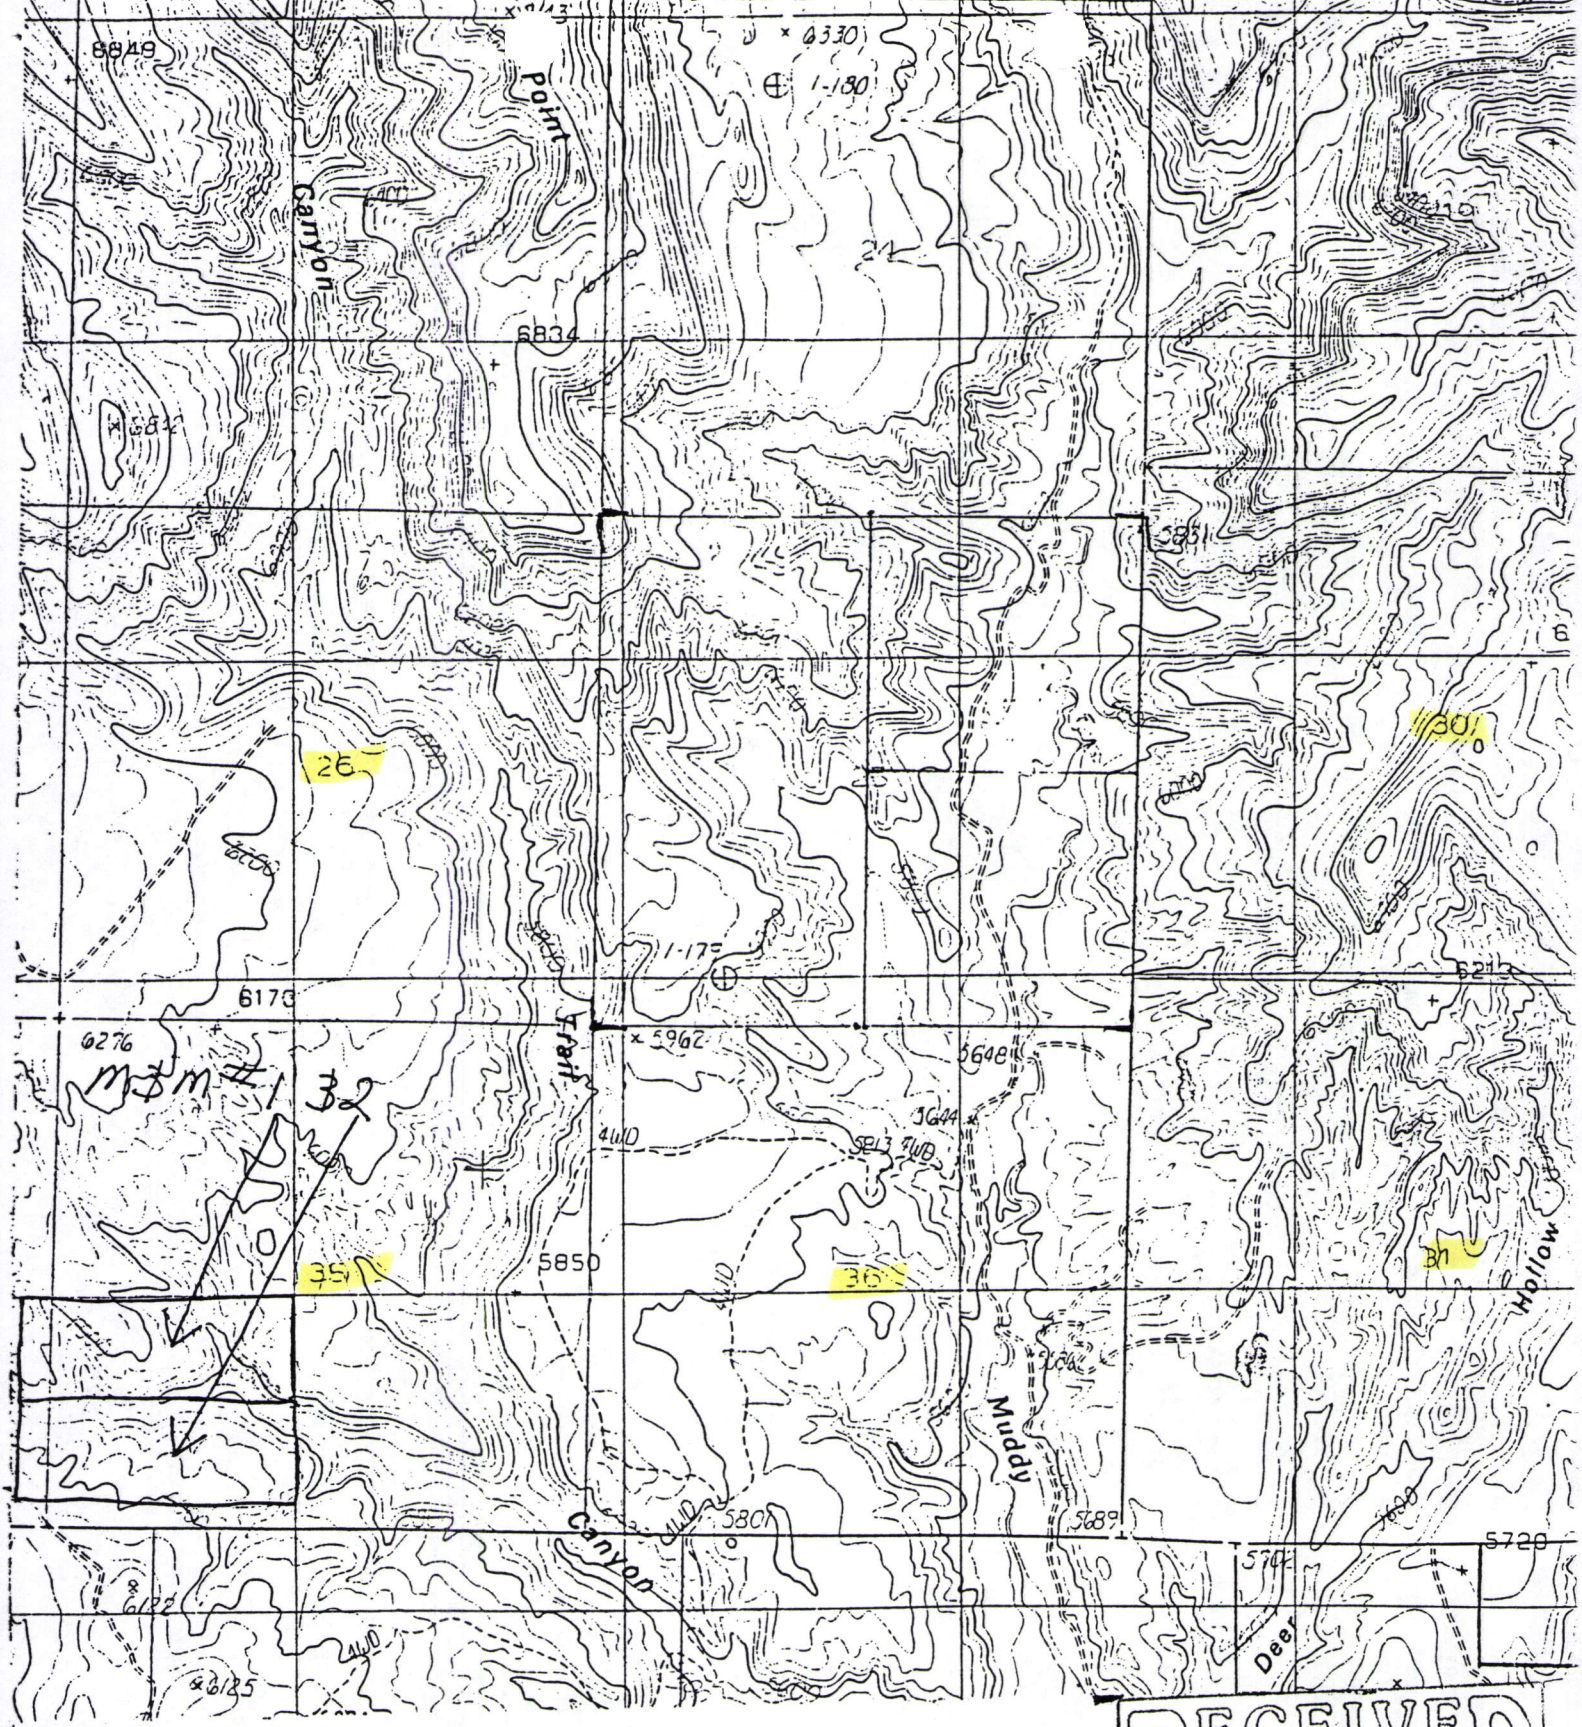

Proposed Reclamation

Reclamation of all areas disturbed will be completed to the standards described in 43 CFR 3809.1-3(c) and reasonable measures will be taken to prevent unnecessary or undue degradation of Federal land during operations.
